

Tabel analyses Vis (Viskwaliteit, leeftijd, authenticiteit)

| Produkt | Code | Parameter | Beproevingmethode | Eenheid | Accreditatie status |
|---------|--------|---|--|-----------------|---------------------|
| Vis | CHL004 | Calcium | ISO 6490/1 | %VS | NG |
| Vis | CHL009 | Totaal fosfor | ISO 6491 | %VS | NG |
| Vis | CHL014 | Ruw eiwit (Nx6.25) | ISO 5983-2 | %VS | NG |
| Vis | CHL015 | Ruw vet-B | ISO 6492 | %VS | NG |
| Vis | CHL016 | Ruwe as | ISO 5984 | %VS | NG |
| Vis | CHL019 | Sulfiet | Devries et al. (1986) | ppmSO2 | NG |
| Vis | CHL022 | Vocht | 71/393/EEC | %VS | NG |
| Vis | CRL002 | Benzoe- en sorbinezuur | Mikami et al. (2002) | mg/g | NG |
| Vis | CRL003 | Biogene amines | Malle et al. (1996) | ppm | NG |
| Vis | CRL003 | Histamine | Malle et al. (1996) | ppm | NG |
| Vis | CRL007 | PAK (incl. staalvoorbereiding) | Eigen methode gebaseerd op JAMP richtlijnen voor monitoring van contaminanten in biota en sediment (ICES2011;OSPAR 2002) | µg/kgWW | NG |
| Vis | CRL008 | PCB (incl. staalvoorbereiding) | Eigen methode gebaseerd op JAMP richtlijnen voor monitoring van contaminanten in biota en sediment (ICES2011;OSPAR 2002) | ppb | NG |
| Vis | CRL011 | Totale lipiden (incl. staalvoorbereiding) | Eigen methode afgeleid van Smedes (1999) | % | GA |
| Vis | CRL013 | Vetzuren C6-C24.1 | Sukhija P.S. et Palmquist D.L. (1988) | % | NG |
| Vis | CRL014 | Aminozuren (excl. tryptofaan) | Eigen methode | g/kg | NG |
| Vis | CRL014 | Aminozuren (g/kg DS) | Eigen methode | g/kg droge stof | NG |
| Vis | CRL014 | Tryptofaan | Eigen methode | g/kg | NG |
| Vis | GNL001 | Authenticiteit | Bossier et al (1999) en Lees (2003) | gen.spec. | NG |
| Vis | MML002 | Total Count | De Witte et al. 2014 | Log cfu/g | NG |
| Vis | MTL004 | Microplastics | De Vriese et al. (2015) | aantal | NG |

| Produkt | Code | Parameter | Beproevingmethode | Eenheid | Accreditatie status |
|---------|--------|-------------------------------|--|--------------|---------------------|
| Vis | OLL001 | Organoleptische parameters | Yamanaka et al. 1987; Torry Sensory Assessment Scoring Schemes Seafish | beschrijven | NG |
| Vis | OLL002 | Versheid | QIM | KIM-score | NG |
| Vis | OTL001 | Leeftijd | Eigen methode (telling jaarringen) | jaar | GA |
| Vis | TNL001 | Deiningsgecompenseerd gewicht | Eigen methode | g | NG |
| Vis | VKL001 | Ammoniak | AOAC 973.25 | µgN/100g | NG |
| Vis | VKL002 | Deeg | AOAC 996.15 | % | NG |
| Vis | VKL003 | Dimethylamine | Dyer and Mounsey | µg/100g | NG |
| Vis | VKL004 | α-glucosidase activiteit | Duflos et al. (2002) | activiteit | NG |
| Vis | VKL005 | Graten | Codex STAN190-1995 | aantal/kg | NG |
| Vis | VKL006 | Ijslaag | AOAC 963.18 | % | NG |
| Vis | VKL007 | Parasieten | AOAC 985.12 | aantal/kg | NG |
| Vis | VKL008 | pH | ISO 2917 | pH | NG |
| Vis | VKL009 | Polyfosfaten | NEN-ISO 5553 | polyfosfaten | NG |
| Vis | VKL011 | TBA | AOCS Cd19-90 | TBA-waarde | NG |
| Vis | VKL012 | Trimethylamine | AOAC 971.14 | mg/100g | NG |
| Vis | VKL013 | TVB | Ministerieel besluit 10 juli 2000 Belgisch staatsblad | mgN% | GA |
| Vis | VKL014 | Ziekten | ICES Guidelines | eenheden | NG |
| Vis | VKL015 | Zoutgehalte | AOAC 937.09 | % | NG |
| Vis | VSL001 | Aantal | Scantrol Fishmeter manual | - | NG |
| Vis | VSL002 | Lengte | Scantrol Fishmeter manual | mm/cm | NG |
| Vis | VSL003 | Geslacht | Rijnsdorp et al. (2002) | M/V | NG |
| Vis | VSL004 | Geslachtsrijpheid | Rijnsdorp et al. (2002) | stadium | NG |
| Vis | VSL005 | Gewicht | Scantrol Fishmeter manual | g | NG |
| Vis | VSL006 | Gewicht gonaden | Scantrol Fishmeter manual | g | NG |

*Accreditatiestatus: GA= geaccrediteerd (BELAC 315-TEST) ; NG = niet geaccrediteerd
